Pathways Texas Internship:

The Pathways Texas Internship is a nine-month (September – May) missionary training program that prepares participants to serve among specific people groups.

Pathways Texas is geared to both full-time and part-time missionaries and is layman friendly. Interns live in apartment complexes alongside their chosen people group while veteran practitioners train them in missionary best-practices. The program culminates in an overseas missions' trip to work with their target people group in their home country.

Participants are self-funded and provide their own housing and transportation. Most participants find local employment.
